Terresolve Technologies, Ltd.  
Attn: M.E. Miller – CEO  
35585-G Curtis Blvd.  
Eastlake, OH 44095

Mark,

The Stanley Works – Hydraulic Tools Division is pleased to inform you that it approves and thereby recommends your EnviroLogic 132 hydraulic fluid as a biodegradable alternative for use in our products.

This approval/recommendation is based on our in-house performance tests and the data supplied by Terresolve Technologies. Furthermore, the use of EnviroLogic 132 hydraulic fluid will not void Stanley Hydraulic Tools' product warranties.

The Stanley Works – Hydraulic Tools Division

K.E. Mellits  
Engineering Manager
